SYSTEMS AND DATABASES: Git, PostgreSQL, MongoDB, Office 365, Office 2010

PROJECTS

WIT Portfolio Project   Sept. 2023 - Sept. 2023
Web development portfolio built to teach students of the International Development Relief Foundations Women In Tech Program web development fundamentals.
Tech Stack: HTML, CSS. Deployed using Netlify.

Music Diary   Sept. 2023 - Current
Full stack ReactJS application that recommends and plays tracks based on the end-user's mood.
Tech Stack: React-Bootstrap, Node, and Express.

Leftovers App   Mar. 2023 - Mar. 2023
Full-stack web application built to recommend end-users recipes based on the ingredients they have available at home.
Tech Stack: React-Bootstrap, Node, and Express

Food Ordering App   Feb. 2023 - Feb. 2023
Food ordering web application that emulates the online food ordering experience, similar to services offered by applications like SkipTheDishes
Tech Stack: HTML, CSS, Express, Node

Scheduler   Feb. 2023 - Mar. 2023
React-based project designed to book meetings for students to connect with mentors in real time.
Tech Stack: React, Axios, Classnames, Storybook

EDUCATION

Bachelor of Arts Political Science, Minor Computer Science   Sept. 2015 - June 2022

Lighthouse Labs   Jan. 2023 - Mar. 2023
Diploma Full-Stack Web Development

EMPLOYMENT

International Development and Relief Foundation, *Women In Tech Instructor*, Remote   Aug. 2023 - Sept. 2023
- Successfully mentored and instructed over 20 young women in HTML, CSS, and JavaScript, helping them build a strong foundation in web development.
- Designed and delivered engaging lessons and coding exercises, tailoring instruction to accommodate various learning styles and abilities.
- Demonstrated patience and empathy while supporting students through coding challenges, fostering a positive and inclusive learning environment.
- Provided constructive feedback and evaluated students' progress to ensure continuous improvement in their skills.
- Collaborated with fellow mentors and educators to enhance the overall learning experience for participants.

Federation of the Humanities: Congress 2021, *Event Technician*, Remote   May 2021 - June 2021
- Proficient in setting up, and operating audio, visual, and other technical equipment for conferences and events.
- Ability to quickly troubleshoot issues related to presenter(s) technical equipment.
- Performed 3-2 daily technical checks and addressed any issues that arose at the time.
- Collaborated and managed one other event technician per shift.

Walmart, *Sales Associate*, Edmonton, AB   Mar. 2016 - Current
- Developed strong communication and interpersonal skills through years of servicing dozens of customers per shift.
- Refined problem-solving skills by mediating between customers and management, prioritizing customer satisfaction and in-store policy.
- Improved resourcefulness through consistently meeting the demands of Walmart's rapidly evolving in-store policy and practices, and dynamic work environment.
- Honed collaborative skills through working within a team to meet in-store goals and provide a positive customer experience.

AWARDS

Kickstart 2023 Participant, *Amii*   Sept. 2023
The Kickstart Program welcomes early-career women and gender-diverse individuals who are gearing up to start their careers in AI. The program includes 15 hybrid sessions and offers:
- Exposure to companies and leaders in AI-related fields
- Increased awareness of the technical knowledge/tools needed to pursue a wide range of career opportunities in AI
- Access to diverse mentors in STEM-related organizations
- A network of peers from a range of backgrounds and experiences

Central European and Hungarian Studies Award, *Wirth Institute for Austrian and Central European Studies at the University of Alberta*   June 2021
Awarded to students for their demonstrated excellence in research on Hungarian Studies. As part of my final research project, I had to analyze the extent of democratic-backsliding in Hungary and contextualize my findings in the Central Eastern European region. My professor nominated me for this award as the top-ranking student in her class and I was notified as part of accepting this award that my paper may be slated for publication.

VOLUNTEERING

Political Science Undergraduate Review, *Senior Copy Editor*, University of Alberta   Oct. 2020 - Apr. 2022
- Effective written and verbal communication skills honed by editing and proofreading over 30 articles for an undergraduate journal.
- Meticulous in ensuring accuracy and consistency in grammar, syntax, and citation style for all articles published by the journal.
- Proficient in managing multiple junior editors, articles, and their deadlines, ensuring the timely publication of the journal.
- Well-versed in using various style guides such as APA, MLA, and Chicago, ensuring adherence to academic journal standards.

The Younited Project, *Software Developer*, Remote   June 2023 - Current
- Contributed to early planning decisions by creating user stories, and wireframes, incorporating user feedback to improve the overall user experience.
- Optimized prototypes by conducting user research and interviews with the target consumer base
- Demonstrated problem-solving skills by translating business requirements into technical specifications to address the specific needs of NGOs and other stakeholders.
- Adhered to activities in the early software development life cycle.
